The New York Herald yesterday retaliated by asking Mr. Edison ten questions and challenged him to answer them without recourse to an encyclopedia. How much do you know? Here are ten questions, which

we challenge the public of New York to answer:

2-Who was the famous King of history that the Queen of Sheba visited? 3-What method of conveyance did she use in going to see King Solomon?

4—Where did she get the diamonds and jewelry that she gave to her beloved King? 5-What costume did she wear when she was presented at

the Court of King Solomon? 6-What did she say to King Solomon when she first met him?

8 How many wives did Solomon have when he met the Queen of Sheba?

Royal chariot races? 10-Why didn't Solomon marry the girl?

Of course these questions are bound to make you think, and perhaps the average citizen cannot answer them off-hand; but any reader of this newspaper can answer each and every one of the foregoing questions if he or she will go at once to see the great William Fox super-screen spectacle, "The Queen of Sheba," now being presented twice daily at the Lyric Theatre on West 42nd Street.
